

## Stackright Ltd - Building Warranties

### **10 YEARS STRUCTURAL WARRANTY**

The Stackright 10 years structural warranty gives you the reassurance that your building was not only designed and manufactured to the highest standards but will also provide structural integrity and peace of mind for many years provided that a recommended programme of care and maintenance is carried out.

Exterior bodywork and paintwork should be examined for damage at six-month intervals basis or at three-month intervals if the unit is in coastal areas and subjected to salt spray atmospheric conditions. Any areas found to need remedial work should be adequately maintained.

These elements are the external walls, floor bearers, roof, and columns.

### **12 MONTHS PRODUCTS WARRANTY**

The Stackright 12 months products warranty covers other parts of your building, except consumables, not covered in the structural warranty above. These include window frames, window glazing, external door frames, external door finish, external door glazing,

The internal walls and ceiling are required to have periodic wiping with a dampened duster cloth. Any areas found to need remedial work should be adequately maintained.

### **12 MONTHS PARTS ONLY WARRANTY**

The Stackright 12 months parts only warranty covers all elements not covered in the Structural and Product warranties above including electrical and plumbing items.
