## Environmental Policy Statement

Stackright Ltd recognises and is fully committed to the requirement for continual sustainable development and strives to improve the environmental impact of its activities. To achieve our desired environmental objectives, Stackright Ltd are committed to both enabling and encouraging the following through-out its business and across all business functions:

The main aspects in consideration of our commercial activities include:

### Co-Operation /Guidance in Line With:

- The communities in which we operate.
- The government, regulatory bodies and other interested parties with the shared vision of being a good and trusted neighbour.

### Establishing Strong Environmental Management By:

- Meeting or improving upon relevant legislative, regulatory and environmental codes of practice.
- Developing objectives that target the environmental improvements and monitor performance by regular review.
- Considering any environmental issues in the decision-making process.
- Developing a relationship with suppliers and contractors so that we all recognise our environmental responsibilities.
- Educating staff so that they carry out activities in an environmentally responsible manner
- Committing to the prevention of pollution

### Provide Effective Use of Resources by:

1. Promoting waste minimisation by recycling or finding other uses for our by-products whenever economically viable.
2. Promoting the efficient use of resources, energy and fuel use throughout the company's operations.
3. Reduce our impact on the environment.
4. Promoting regular communication to all staff and our supply chain of responsibilities and Stackright Ltd's Environmental commitments.
5. Sustainable purchasing where possible

This policy is affective across all employees, underpinned by a commitment from management to ensure its compliance at all times.

This policy is reviewed annually.
